COMMERCE and FINANCE

STRONG UNDER

the Specialties.

New York, Jan. 3,-The general topic of conversation in large brokerage houses after 3 o'clock today was the wonderful strength shown by the stock market in the face of the adverse developments over the holiday. Trading was so vigor-

over the holiday. Trading was so vigorous that the total turnover for the session was the greatest in several weeks, being approximately 1,000,000 shares.

The sinking of the steamship Persia imparted pronounced weakness at the beginning, with losses in the standard issues ranging from one to two points. But a good demand developed with the recession in market values. This was helped along by reports that the Persia carried guns. The oll shares, however, shood out from the balance of the list on account of their activity and new high prices. Copper shares were in good demand because of a further advance in the price of the metal to 23 cents a the price of the metal to 23 cents a

Rails Are Erratic.

The raits shared in the early recovery but their response to the very favorable statements of earnings announced by the Pennsylvania and New Haven systems was disappointing to the trading fraterwas disappointing to the trading tracer-nity as well as investors in general. St. Paul was the strongest of this group. Specialities absorbed attention in the aft-ernoon, International Marine being at the front. Brokers reported that there was asiderable realizing on the advance, but he strong undertone prevailing at the lose reflected the ease with which offer-ngs were absorbed.

The upward movement and aggressive

lying in view of the adverse developnent was so astounding to the managers of some comission houses as to discon-cert their judgment. One manager said that he was so apprehensive of the sudden sharp reaction in many issues that he was afraid to put any of his cus-

Mexican and California petroleum were purchased on reports that these two companies, together with the Associated Oil and Union Oil, would be merged into he Pan-American Petroleum and Transportation Company. Other independent companies will also go into the consolida-tion, according to inside interests. Bank-ing interests are said to have arranged to provide the new combine with abundant

working capital, but details relative to it are still vague and indefinite. The rise in California Petroleum com-mon of pearly five points, in the minds of some good judges of market values, was overdone, but, of course, this would depend to a large extent upon future market quotation for the stock of the new Pan-American Petroleum and Transpor tation Company. Most of the railroad shares closed with fractional losses, depite the favorable reports of earnings sublished for November

Rubber stocks were active both on the tock exchange and on the curb. United states Rubber rose more than two points at one time on large transactions, while

CHANGE DEMAND IS LIGHT.

Bonds Preferred Over Stocks, Which Odd Lots Are Sold.

The demand for local securities yearday on the Washington Stock Exhange was light. Bonds found a better market than stocks, sales of the latter being confined to odd lots. A total of \$10,000 worth of Washington

Gas 5 per cent bonds sold at 105 7-8. The Washington Rallway and Electric 4s

The Safest Investments

Are those that do not finetuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-ages), well secured on real estate in the Dis-trict of Culumbis, constitute "gilt-edge" in-vestments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability, and are exampt from taxation as personal property. We can supply such investments in amounts from \$400 nparard. Send for booklet, "Concerning Loans and Investments.

The extensive connections and ample re-

sources of this bank en-

able it to render customers service that is ade-

quate in every respect.

NEW YORK MONEY.

New York, Jan. 3.—Call money opened at 1% per cent; high, 2½ per cent; low, 1% per cent; renewals, 1% per cent; ruling rate, 1% per cent; closed. 2½ per cent.

Trading in time money is quiet. The demand is light, and lenders were not inclined to force money on the market. Industrial loans constitute the bulk of the business. Rates are 25:2% per cent for sixty days, 7%3 per cent for ninety days, four, five and six months.

he and six months,

The commercial paper market is marking time
and the trading is quiet. The sinking of the
Persia has caused a few of the buyers to with
draw from the market pending further derelopments. To effect this, however, borrowers show
no inclination at the moment to enter into further
commitments. Being

CHICAGO GRAIN MARKETS.

Chicago, Jan. I.—Wheat stocks are accumulating in all positions. These conditions under ordinary circumstances mean further price declines. The present risible supply continues to gain on the risible at this time last year, the increase the last week being 5,854,000 bushels, while the Canadian risible increased \$50,000 bushels and the stocks at Chicago gained 1,225,000 bushels. In addition to these berish helps, was a falling off in the cash trade. There were only 3,000 bushels of wheat sold here to millers today and thirty best loads were taken to go out ris the Gulf. Price losses here today were 15a5's cents, and while shorts covering caused reactions of 's to 's cont, the market was in full control of the bear element, which has increased largely over the holidays. There were a large number of grain men from outside markets here today attending the annual election of officers of the board of trade. Most of these outsides believe wheat is likely to sell some

Washington COTTON MARKETS.

New York, Jan. 3.—Following weakness, cotton rallied today. In the last hour, however, local selling, coupled with a reaction at New Orleans, caused prices to sell off a few points, but demand from the trade sources brought about a recover? The close was steady at a net lose of 4 points to an advance of 1 point.

In the early deslings the latest submarine developments overshadowed firm cables and the market showed a loss of 15 to 19 points from Friday's close before the break was checked. A good many contracts were taken out of the ring by Liverpool straddic shorts on the set-back and prices steadied toward the end of the first hour on covering and calmer view of matters. It was said that a great deal of the buying was for the account of Southern spot merchants. There was more talk than usual regarding the season's probable acreage. Predictions were heard that there would be an increase in the land devoted to the staple in the coming season, influenced by the satisfactory prices revailing. Notable among these forecasting a great trac was E. G. Scales, who was quoted as expecting a market gain in the Southwest.

The spot article here was steady and unchanged at 12.50 cents, with sales of 200 bales. Spot at Liverpool was in good demand at an advance of points on the basis of 3 10d for mid-upland. Furtures in the English market closed barely steady at a net gain of 25a5 points.

The receipts of cotton at the ports for the day were 18.50 bales for the day sugregated 18.65 bales were and 33.38 bales last year. New York warehouse stocks are 25.453 bales, against 18.577 bales last week and 33.38 bales last year. New York warehouse stocks are 25.453 bales, against 18.577 bales last week and 33.38 bales last year, ago. Exports for the day sugregated 18.656 bales.

(Copyright, 1965, by McClure Newspaper Syndicate.) If he had not had smart business asso-Here is an amazing explanation of clates the Ford Company would not be Henry Ford's peace ship flasco.

What it is today."

"I have known Mr. Ford for many grand lost money on it. years," said be, "and I tried to dissuade Promoting a Real Q years," said le, "and I tried to dissuade him from this silly European trip, which was sure to make him a laughing stock, but I could not do it. He believed it was a good way to get his hame before the American people in confection with mational affairs. He fully realized that his name was only known as the maker of a cheap automobile and a catchword for comedians. He wanted other prominence, and the war seemed to offer the casiest and quickest way to get it.

Promoting a Real Queen.

He is now in New York and looks unhappy, that is, unhappy for a man the set way should be supposed in the same of th

and the war seemed to offer the easiest and quickest way to get it.

"As all his friends know, Mr. Pord is a good deal of a socialist. An out-and-out socialist, I should say. He believes he has done a great deal of good for the laboring classes." We manufacturers think he has done a good deal of harm. He believes that 'the great 'question in his country is the labor problem, and that he, as President of the United States, and so as to repay Bill for all.

"Because he has upset the labor marexciting election ever held on the board of trade, Joseph Griffin was today elected president over James A. Patten, the widely-known speculator. About 1.200 votes were cast, members coming from Minneapolis, Winnipeg. St. Louis, Kanbas City, New York and other cities to cast the whole point and that's just W. de Forrest tells me, and he ought what Henry Ford does. He overpays to know as he is the vice president of the president of the control of the president of the control of the c

"You will be surprised to know." continued Mr. Mason, "that Mr. Ford's publicity campaign is already being carried under the direction of the Washington extensively in the country districts

"You will be surprised to know." con-

tensive interests, both in this country and in Europe, especially in Russia.

Would Get in the T. R. Class.

this country is the labor problem, and that he, as President of the United States, could do for the whole country something like he has done for the city of Detroit. He honestly believes he has done Detroit a great deal of good. That is not an undivided opinion, however. Speaking as one manufacturer, I think his philanthropy is injurious."

"In what way?" I asked.
"Recause he has upset the labor way."
"Shermen way right."

"Sherman was right."

Asked City. New fork and other cities to cast what their ballots. Mr. Patten had the support of the private-wire houses, while Mr. Griffin was the candidate of the "regulars." Griffin won by thirty-five votes.

What I cally for does. He does not have a labor and I presume underpays the society. The five years of revolution have left the population thoroughly sick and in need of nursing more than anything else, says Mr. de Forrest.
